

Amino 5000™ *Protein Without the Calories!™*

Amino 5000™ is an amino acid complex derived from Enzymatically Hydrolyzed Whey Isolate Protein. It is a perfect source of protein for anyone looking to increase their protein intake without adding calories. Because it is a pre-digested protein, **Amino 5000™** allows for an extremely fast assimilation into the bloodstream thereby enhancing nitrogen retention for maximum gains.

Available in 300 capsules

Ingredient Info

6 capsules contain:

Hydrolyzed Whey Protein (yielding 4014 mg of di and tri peptide amino acids)	4014mg
*BIOPERINE (Black pepper extract)	6mg

CLA™ *Be Good to Yourself!*

CLA™ is a naturally occurring free fatty acid found mainly in meat and dairy products, and in small amounts helps the body burn fat and build muscle. Getting enough **CLA™** from your diet for the preferred benefit would require considerable intake of these types of foods. Alternatively, InterACTIVE Nutrition offers **CLA™** in a convenient capsule format.

Available in 60 softgel capsules

Ingredient Info

Each softgel capsule contains:

Conjugated linoleic acid (derived from processed safflower (Carthamus tinctorius) seed oil) (1000 mg CLA-Rich Oil provides 850 mg Conjugated linoleic acid)	850mg
---	-------

BCAA™ *Conserve Muscle Mass and Reduce Muscle Breakdown!™*

Among the most beneficial and effective supplements in any sports nutrition program are BCAAs (Branched chain amino acids). These are the essential amino acids - Leucine, Isoleucine, and Valine which make up **BCAA™**.

Available in Tropical Punch in 600g (1.3lbs)

BCAA Muscle Guard™ is available in 240 capsules

Ingredient Info

	Per 1 scoop (5g) powder	Per 1 capsule (0.675g)
L-Leucine USP	2.25g	0.304g
L-Valine USP	1.5g	0.202g
L-Isoleucine USP	1.25g	0.169g

Micro Creatine™ *MicroPure™ brand Micronized Creatine Monohydrate!*

MicroPure™ brand **Micro Creatine™** is manufactured using cutting edge processing technology called "micronization", which breaks up regular creatine monohydrate into micro-fine powder, allowing it to be absorbed by your muscles much faster than regular creatine monohydrate. This means you will experience faster gains in strength, lean-mass, stamina, endurance and faster recovery from training. MicroPure™ is the best micronized creatine monohydrate for maximum athletic performance.

Available in 300g (0.7lbs) and 600g (1.3lbs)

Ingredient Info

Each scoop (5g) contains:

Creatine monohydrate Ultra fine powder	5g
--	----

Beta Alanine™ *For Maximum Muscle Endurance!™*

Beta Alanine™ provides a safe and effective means of satisfying your overall hardcore athletic needs, by drastically improving muscle strength, size, and endurance. **Beta Alanine™** is also known as a 3-aminopropanoic acid, a non-essential amino acid with a simple chemical structure that allows it to be easily converted into glucose, which is essential for any prolonged physical activity.

Available in 200 capsules and 500g (1.1lbs)

Ingredient Info

	Per 1 scoop (2g) powder	Per 1 capsule
Beta-Alanine (3-aminopropanoic acid)	2g	750mg

L-Glutamine™ *Leading the Way in Maximum Recovery!™*

InterACTIVE Nutrition's **L-Glutamine™** supports healthy immune functioning that is crucial for optimal health and to make gains in performance and muscles. By accelerating the shuttling of amino acids into muscle cells, it helps to prevent the onset of over-training syndrome, thereby improving exercise recovery.

A cutting edge processing technology called 'Micronization' breaks up regular L-Glutamine into micro-fine powder thereby increasing its solubility in liquids, allowing it to be absorbed by the body much faster.

Available in 250g (0.6lbs) and 500g (1.1lbs)

Ingredient Info

	Per 1 scoop (5g) powder	Per 1 capsule
L-Glutamine powder	5g	750mg

Whey Pro XL™ *The Best Whey to Get Noticed!™*

What makes **Whey Pro XL™** different? **Whey Pro XL™** is the only Whey Powder that features the Maximum Result Matrix™, a new nutrient absorption and assimilation matrix designed to get you the maximum amount of protein per serving. Low in fat and reduced lactose makes it even more valuable for lean muscle gains.

Available in Vanilla, Strawberry, Cookies and Cream, and Chocolate, in 910g (2lbs) and 2.27kg (5lbs)

Nutrition Info

Amount per 1 Scoop Serving Size (35 g)	
Calories	132
Total Fat	1.9g 3%
Carbohydrate	4.7g 2%
Protein	24g

N.O.K.O.™ *For Knock-out Performance!™*

N.O.K.O.™ is an advanced, pre-workout drink mix that produces dramatic results, and contains scientifically proven ingredients that instantly increase energy, enhance focus, induce muscle pumps and boost strength. By simultaneously priming your Central Nervous System (CNS) and Skeletal Muscular System, **N.O.K.O.™** primes you for outstanding performance.

Available in Fruit Punch and Tangerine in 800g (1.8lbs)

Nutrition Info

Amount per 1 Scoop Serving Size (20 g)	
Calories	30
Total Fat	0g 0%
Carbohydrate	7g 3%
